Organic Lounge

Biography

Organic Lounge has been pushing musical boundaries since 2009 with their innovative approach to live music. The concept is simple: a DJ combined with a musician creating the ultimate Ibiza- cocktails-style setting with a uniquely South African flair. As the musician is led by the DJ they can perform any style of music to suit the crowd. This calls for an extremely talented musician that can improvise and sound amazing. Enter Organic Lounge.

Organic Lounge combines top South African musicians, who specialise in improvising, to perform alongside a DJ playing lounge, deep and tropical house, AmaPiano and more (with the option of tailoring the music according to brief). Instruments to choose from include sax, violin, trumpet and percussion.

Organic Lounge has been a popular choice for hundreds of cocktail functions, private parties, intimate dinners, high-end corporate functions and luxury wedding destinations where a chic contemporary background atmosphere is required without intruding on the function. They also have the unique ability to ramp it up and get the dance floor going due to their huge repertoire range.
